

BUILDING SUSTAINABLE FUTURES

Enacting Peace and Development

ipra

2008 GLOBAL CONFERENCE

UNIVERSITY OF LEUVEN, BELGIUM

15-19 JULY

ABOUT THE CONFERENCE

With significant changes in the human climate, our planet has a better chance for sustainable development. The challenge is to re-search new futures. Scholars, decision-makers and practitioners must bring intellectual, volitional and emotional functions into play together. Peace researchers have a vital role in the process of constructively transforming the conflicts in the world today.
